Glasstream - 280 PRO-XS

\$ 119,000

Description

Named "The First Lady", this may be the most amazing 280 Pro-XS ever to leave the hands of A.L. Kirkland. Over 140 hours went into the details on this rig, yes you read that right, that's not a wrap. An actual Painter hand laid all of that amazing art work on her Hull. The detail is insane, and because it's done that way, it far easier to be touched up after wards in the event of an issue. Powered by twin 225 hp Suzuki outboards, this rocket ship will propel you to speeds of around 70mph, meaning not only are you the best looking, but the fastest of all your friends. All the LED's in the boats including the speaker rings glow red making this boat a true spectacle to observe after the sun sets. And the Fusion audio makes sure that even at 70, you hear your music LOUD and CLEAR. Here's some info from Glasstream on the 280 Pro-XS The 280 PRO-XS sets a new industry standard for a family-friendly coastal fishing vessel. The custom fiberglass hard top adds to the stunning look and functionality of the model, while the molded in seating arrangements in the cockpit leave numerous entertaining or lounging options for you, your friends, and family. Relax in the lounge area, fish off the bow, or go for a swim. If you like to ski with the optional ski-radar arch t-top, chase the sun or fish your favorite spot, this 28' center console Glasstream can do it all.
